

# California OES Weather Threat Briefing

Saturday, September 14, 2019  
9:00 AM PDT

**Day 1: Moderate heat impacts expected over portions of  
Inland and Southern Region today.**

**National Weather Service**  
*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**09/14/19 - 09/20/19**

## **Saturday**

- Above normal temperatures are expected through today.
  - Moderate heat risk impacts possible in portions of Inland and Southern Regions.
- Elevated fire weather conditions portions of Inland and Southern Regions due to hot, breezy, and dry conditions.

## **Sunday-Monday**

- Cooling trend across the state will significantly reduce or eliminate heat-related impacts.
- A period of strong winds are expected Sunday and Monday, primarily over and near the Sierra.
  - These strong winds, combined with dry conditions, will lead to critical fire weather conditions.
  - Reduced visibility in blowing dust and impacts to high profile vehicles, aviation, and boats on area lakes are also possible.
- Light to moderate rainfall expected across the northern half of the state Sunday and Monday.

## **Tuesday-Friday**

- Generally cooler temperatures expected to prevail through the week.
- Additional rain showers possible through the week, primarily across the northern third of the state.
